Capitation is a type of a health care payment system in which a doctor or hospital is paid a fixed amount per patient for a prescribed period of time by an insurer or physician association. It pays the doctor, known as the primary care physician (PCP), a set amount for each enrolled patient whether a patient seeks care or not.

Pros and Cons of a Health Care Capitation Payment System

Capitation is a payment arrangement for health care service providers such as physicians. Under capitation, a physician or group of physicians receives a risk adjusted set amount for each enrolled person assigned to them, per period of time, whether or not that person seeks care. Primary care capitation,...

Capitation, Primary Care

What is Capitation? Capitation payment is a model of reimbursement in which the providers receive a fixed amount of money per patient. This is paid in advance, for a defined time, whether the member seeks care or not. Ideally, patients who have little utilization will naturally balance out with the patients who have higher utilization.

Capitation Payments - What You Need to Know | CareCloud
