This ice cream cone doesn't have 2 parts because we are showing how we are "taking away" a part of this number equation. They will also write the number rolled on the die in the first box of the equation. Students will then roll a second die (or one die, twice) to find the second part of the equation.

Reading about math is often slower than reading for amusement. The only assignment more difficult than working math problems is reading about math problems, so I have included numerous figures and illustrations to help you understand the material. Although the title of this book suggests studying each lesson for 20 minutes a day, you should ...
