They also have over one hundred different special collections ranging from American Lit to Western Philosophy. Worth a look.

Sadava Biology Study Guide

This study guide is such a useful tool, especially for any Biology class specifically to do with cell physiology and organs. It's a great accompaniment to the textbook and I honestly find myself referring back to it for studying even more than Sadava's main textbook. For me it was definitely worth the purchase!

Amazon.com: Study Guide for Life: The Science of Biology ...

It's a study guide, not the actual book, and everything you get in here you can learn better and more in depth using the actual text. Otherwise it's a fine study guide.
