are essential reading for practitioners as they begin, and then develop, their work with the statements of experiences and outcomes. Each document sets out the purposes of learning within a particular curriculum area, describes how the experiences are organised, and offers guidance on aspects such as learning and teaching, broad features of assessment, progression and connections with other areas of the curriculum.

Principles and practice | Curriculum for Excellence ...

The Practice Principles articulate how teachers can deliver the curriculum and engage students. They are designed to link directly to a school's documented teaching and learning program, which outlines what is to be taught, and the approach to assessment, which helps teachers determine student learning needs and how students can demonstrate their levels of understanding.
